

Rules and Requirements for Circulators

- You must be physically present when an individual signs the petition.
- You must verify that a person signs only for his or her self and not for another person.
- You must fill out the circulator verification page of every petition packet you circulate.
- You must be at least 18 years of age and a resident of Utah to circulate packets. If you are not registered to vote in Utah, you may be asked by an election official for proof of age and/or residency.
- If you would like to sign the petition, you cannot sign a signature page of a packet that you circulate. You must sign the packet of another circulator.
- Petition packets must be bound prior to circulation. Rearranging packet pages after they have been bound will disqualify all signatures within the packet.
- Falsifying petition signatures is a crime. Violations will be forwarded to the appropriate prosecutorial entity.
